Arrival & Transport

Getting There

Thanks to the fast and free A4 highway, Tarnów is easily reached by car, and less than an hour's drive east from Kraków. A good network of trair and bus services link Tarnów with major destinations throughout Poland connections to Kraków are fast and frequent, and train times to Warsaw are under 3.5hrs. Use e-podroznik.pl to easily search bus and train timetables, compare prices and buy tickets. The nearest airport to Tarnów is Kraków Balice (90km by motorway).

Train Station

One of the largest, and most beautiful Polish stations east of Kraków Tarnów's railway station was opened in 1910, and has been fully modernised to include all the services you'd expect (ticket machines, shops, cafes and eateries, free wifi, charger ports), while retaining its original character including Edmund Cieczkiewicz's paintings of the Tatra and Pieniny mountains, which were funded by the early train owners over a century ago In front of the station is a large public square, while inside you'll find a branch of the BWA art gallery displaying works by Małopolska artists (open 09:00 17:00; closed Mon, Sat; admission free) and Galeria Panorama - a branch of the Tarnów District Museum (see Museums). Walking to the market square only takes 10mins up ul. Krakowska, while a taxi from outside the station costs about 10-12zł. > A-6, Pl. Dworcowy 4, www.rozklad.pkp.pl. Ticket windows open 06:00-21:00.

Currently, Tarnów has no proper bus station. As a result, bus journey times vary, as does the final stop. While many intercity buses stop near the Tarnów train station at 'Do Huty Park & Ride' (A-6), some buses from Kraków may also stop 1.5km to the west at the 'Kochanowskiego 03 - Chyszowska' bus stop. From June, buses coming from the A4 highway will stop at the new Park & Ride/Transfer Hub at the intersection of Aleja Jana Pawła II and ul.

Bionie, where you can grab bus connections south to the Old Town.

Getting Around

your own feet, or rent a bike; the latter can be done from April until the end of November using the Tarnów City Bike system (all bike stands are marked (a) on the map).

If you've brought your own vehicle, you'll find public parking lots marked on our map, including several just off the market square. Street parking is also widely available and must be paid Mon-Fri 09:00-17:00 (look for the handy ticket machines). Tarnów also has a few 'Park & Ride' choices within easy access to public transport - one near the train station (A-6; 3zł/24hrs), another on ul. Ks. J. Marszałka (E-1; absolutely free), and a third will open at the intersection of Al. Jana Pawła II and ul. Błonie in June.

Introducing Tarnów

Listed as one of the 15 most beautiful towns in Europe by CNN, charming Tarnów lies eighty kilometres east of Kraków, near the crossroads of two ancient trade routes. Małopolska's second city by size, Tarnów offers visitors the comforts of a small town with the historical and cultural intrigue of a much bigger city. In addition to a well-preserved Old Town - which includes a glorious **Cathedral**, **Town Hall**, **market square** and many pedestrian avenues in Tarnów visitors will discover unique and worthwhile museums, several wooden churches, historic cemeteries, castle ruins and a scenic overlook, as well as dozens of artistic and historical monuments at every turn. Those with a special interest in Jewish history will also discover a town with a deep Jewish heritage, many traces of which are still in evidence today.

While the town's nightlife may not have the sizzle of a large city, there are still plenty of bars, cafes and restaurants, the best of which we list here, where you'll find it easy to meet friendly local folks who are proud of their city and eager to present a good impression to foreigners.

History

First mentioned in a document dated 1124, Tarnów was granted city rights by King Władysław Łokietek in 1330 - an event celebrated by a monument of the King on ul. Wałowa. It was at this time that the medieval layout the city retains to this day was created. Privately owned until 1787, Tarnów's greatest period of growth came under nobleman Jan Tarnowski during the 16th century, when the Old Town was largely reconstructed in the manner that today earns it the accolade of being Poland's 'Pearl of the Renaissance.' The Tarnowski clan expired without an heir in 1567 and the city was later incorporated into the Austrian-Hungarian Empire during the era of Polish partitions. Tarnów's citizens were quick to join the Polish legions when WWI broke out and the region saw many battles between the Russian and Austro-Hungarian armies, resulting in a trail of WWI memorial sites and cemeteries in the area.

In October 1918 Tarnów gained notoriety when it became the first Polish city to reclaim independence after 146 years of occupation, and again on August 28th, 1939 when German terrorists detonated an explosive in the city's train station killing 20 people and leading some historians to claim that WWII officially started here in Tarnów. The bombs would start falling from the sky six days later and by September 7th the Nazis had captured the city.

The first Jews settled in Tarnów in the mid-15th century and by 1939 their numbers had reached 25,000 - nearly half the city's total population. On June 14th 1940, 728 Tarnów residents (mostly Poles, in fact) became the first victims of Auschwitz; of 40,000 Jews crammed into Tarnów's ghetto. over 10,000 were executed and the rest deported to the Bełżec death camp. Today no active Jewish community remains.

Tarnów was a stronghold of resistance during Nazi occupation, before eventual 'liberation' into the communist regime on January 17, 1945. The city developed rapidly in the postwar period as the monstrous soviet-era residential blocks in the north-east part of the city became home to over one-third of its 100.000 population in the mid-70s. The rise of meat prices in July 1980 inspired a series of strikes in Tarnów, which predated the Gdańsk shipyard strikes (that would eventually lead to the communist regime's collapse) by over a month. Since Poland's ascension to the EU in 2004, Tarnów has enjoyed the revitalisation of its Old Town and is increasingly gaining attention as a noteworthy tourist destination

9 Szczepanik Square

Sightseeing

1 Market Square & Town Hall

Named after local hero Jan Szczepanik, this small public square just north of the Old Town has become a sort of shrine to 'Tarnów's Edison.' Born in 1872 in the small village of Rudniki (now in western Ukraine), Szczepanik started his adult life as an unassuming teacher before discovering his passion and talent for collecting patents, of which he possessed several hundred for the 50-some inventions to his credit over the course of his career. This visionary pioneer of motion pictures, colour television, colour photography, early flying machines, submarines, the wireless telegraph, the bullet-proof jacket and a whole host of other things we take for granted today, moved his workshop from Vienna to whom he married in Tarnów Cathedral in 1902 and fathered five children with. The sadly overlooked inventor died of liver cancer in his adopted hometown in 1926, but is fondly remembered in this square which features a two-level fountain and prominently displays a monument of Szczepanik, plus an outdoor exhibit on his life and inventions, as well as a long curving wall that includes a large mirrored bust of his iconic head, his signature and some important dates from his career. Make a detour in your wanderings to give it a look. > D-3, Plac Szczepanika.

3 The Old Synagogue Bimah

Between ul. Żydowska (Jewish Street) and Plac Rybny (Fish Square) stood The Old Synagogue, Tarnów's primary place of worship for 45% of its population when war broke out in 1939. The first synagogue at this site dates back to some time before 1582; the frequent victim of fires, the wooden structure was finally rebuilt out of brick in 1670. On November 8th, 1939, the Old Synagogue was destroyed by the Nazis and later demolished; all that remains today is the brick 'bimah' - a four-pillared podium from below the tower) differs by two minutes. This can be forgiven when one which the Torah was read. In 1987 a roof was placed over the bimah to protect it, and considers that the manually wound clock - whose 10-metre shaft spans the the area around it has since been renovated into an appealing public space which hosts concerts during the annual celebrations of the 'Galician Shtetl - Jewish Memory Days' since the 1600s. Today the Town Hall is accessible as a branch of the Tarnów each summer. Today the bimah is the most visible and perhaps the most important monument to Tarnów's Jewish heritage. > D-4, Skwer Starej Synagogi.

Tarnów's greatest son was without doubt Józef Bem (1794-1850). A Tarnów's ritual Jewish bathhouse was designed in the Moorish style national hero of Poland, Hungary and Turkey, Bem fought for independence by local architects Franciszek Hackbeil Sr. and Michał Mikoś, and opened in 1904. In use by the local Jewish community until Nazi occupation, during career. Finishing military school in Kraków, Bem participated in the Russian WWII Tarnów's mikvah was used as a detention centre for prisoners bound for the concentration camps. 11 King Władysław Łokietek Monument

On March 7th, 1330, Polish King Władysław Łokietek bestowed Tarnów cityfounder Spycimir Leliwita with a document - an original copy of which survives to this day in Kraków's Czartoryski Museum - granting his new city the right to self-govern under Magdeburg Law, in recognition of services rendered to the crown. 678 years later, the citizens were still so grateful that they erected this impressive 3.5m bronze statue of the king to commemorate his aracious act. Towering over a large square in front the Székelys comprised **General Józef Bem**'s main fighting force, and won Tarnów after falling in love with Wanda Dzikowska, the daughter of a Tarnów doctor, of a preserved segment of Tarnów's original defensive walls off ul.
